# PHYSICAL THERAPY

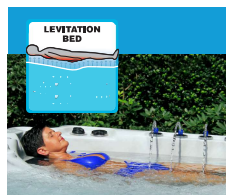

## Aqua Rolling Massage

Our exclusive Aqua Rolling Massage™ pushes water up the back of the seat through specially designed recesses in the spa shell. The resulting agitation of the water creates a vigorous massage that works the muscles throughout your back.

## Intense Therapy Zone

The Intense Therapy Zone™ provides a concentrated, penetrating massage to the lower regions of your back. The intensity of the pressure can be adjusted. Only Passion Spas offers a therapy system for your lower back muscles that allows you to isolate specific areas with the intensity of massage you desire.

## Levitation Bed

The Levitation bed™ is the most innovative spa massage feature available. Experiencing this massage will give you a floating sensation because your body is completely enveloped in a soothing massage that can be adjusted for intensity and effect. You can lie either face down or face up, giving you a full head to toe massage that is simply amazing. The Levitation Bed™ is the only one of its kind and offered exclusively by Passion Spas.

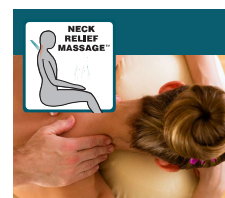

## Therapeutic Wave massage

The Therapy Wave Zone™ is a massage that starts at the lower back, and slowly works its way up from your lower back to your shoulders and neck. The sensation mimics a cushioned rolling pin running up and down your back, soothing your muscles as it works its way from your lower back to neck.

## Freestyle Massage

With the Freestyle Massage you can manually determine at which area of your body you want to receive your therapeutic massage. The rotating jet stimulates your muscles by rubbing with vibrating warm water even above the waterline. This way you can flexibly guide your massage to your shoulder, hip, knee or ankle or any place you need warm water massage.

## Neck Relief Massage™

The Neck Relief Massage™ is a new therapy specially created by Passion Spas which focuses on loosening your neck muscles by massaging from top to bottom your neck. Your muscles are rubbed by the warm water therapy. This massage technique will improve blood circulation, makes you feel positive and give an energy boost.

## Waterfall Massage

Imagine a continuous stream of cascading, warm water falling gently on your neck and shoulders. This is the sensation you experience when enjoying the delightful effects of our innovative Waterfall Massage™. When finished, you will exit the spa with your upper back and neck feeling totally and completely relaxed.
